View of completed model

Sydney Opera House (Australia)

Designed by Dutch architect Jorn Utzon, the striking silhouette of the Sydney Opera House, completed in 1973, recalls either the broad white sails of a ship or a row of seashells.

This structure contains an opera hall, a concert hall, and four other halls. The greenery behind the Opera House includes the Royal Botanic Gardens and a school of music. This structure has come to symbolize the city of Sydney.

*This model was designed for Papercraft and may differ from the original in some respects.

■ Parts list (pattern): Fourteen A4 sheets (No.1 to No.14)

■ No. of Parts: 66

*Build the model by carefully reading the Assembly Instructions, in the parts sheet page order.
